ICE ALUMINUM CONE PIVOT PIN

\$10.81

ICE Aluminum Cone Pivot Pin, anodized black. Standard on ICE rear suspension trikes 2015 and later. Required to install the 2015 and later ICE suspension rear racks on older trikes, or to use TerraCycle 2015 and newer suspension battery mounts on older trikes. Be careful not to damage the nylon suspension bushings when swapping. There are four pinch bolts holding the pivot in place, two on the frame under the trike, and two on the rear section. Loosen all four to swap this part out. As always, feel free to call if you have questions.
