**ICE RETROFIT FRONT
SUSPENSION (LEFT & RIGHT)**

\$1,155.40

ICE's retrofit front suspension kingpost set will fit all ICE standard trikes.

Bolt on for 2010 and later trikes. However, the headset will need to be updated with new headset for trikes built prior to 2010 (Trice).

Suspension kingpost require mirrored brakes. Drums will work in all cases, disc require Callisto mirrored calipers or equivalent.

Non-mirror IS disc calipers, such as Avid BB7, will not work with these kingposts.

Includes a set of preinstalled medium elastomers.

You'll need to reset your trike's toe-in (tracking) as part of the installation (see video below).
